DETAILED ACTION

Claim Objections

1. Claims 3-4 are objected to because of the following informalities:

Claim 3, line 2, applicant is required to clarify how the detecting means detects the existence of a collar attached to a neck of the pet.? It appears that the electronic device attached to a pet collar and the detecting means is located in the electronic device, thus, the detecting means is always detected the existence of the collar.

Claim 3, line 1, insert ----a---- in front of "pet".

Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 3 recites the limitation "a pet" in line 7. There is insufficient antecedent basis for this limitation in the claim.

Claim 3, lines 7, "a pet" is not quite sure that it is the same pet as mentioned in line 1. Claim 3, line 7, "a pet" should be corrected as ---- the pet---- in order to avoid 112 2nd problem.

Response to Arguments

4. Applicant's arguments with respect to claims 3-4 have been considered but are moot in view of the new ground(s) of rejection.
